

FRIDAY, DECEMBER 7, 1744.

THE following Proceedings of the Dublin Society deserve the Notice of all Lovers of Industry, and Friends to Publick Spirit. There never was a better Project than that in Support of which these Gentlemen are engaged; and it is very much for their Honour, that as they undertook the

of it with Alacrity, they have pursued it steadily. Whatever Notions may be entertained in other Parts, they have, in Ireland, most certainly a right Patriotism; a vigorous, warm, and active Patriotism that consists in prosecuting not in propagating Opinions; in doing and enjoining good Works, and not in florid and fruitless

steps like these, that Country will, and every may, be made happy. To encourage Virtue, is the shortest and surest Way of extirpating Corruption. To put the lower Sort of upon living frugally, and working cheerfully, is the most likely to create Property, and Liberty. When Men have something to lose, naturally have a Concern to keep it; and when men become frequent, every Man must study to be a good Man, that he may not be in a worse Way than his Neighbour.

are, perhaps, some who may envy the Advancement of Spirit must necessarily derive to that People; there are any such, I would advise them to contribute their Share into a generous Emulation. Instead of let us study to excel the Irish; not by running particular Improvements, to their Prejudice, but by being equally impolitic and ill natur'd; but by setting out new Improvements of our own. There is room enough for us, and for them; and a propriety in this Respect, is, perhaps, the only way, to render the British Isles the most flourishing, and the most flourishing Countries in the

candidates for the Premiums promised by the Society for the Best, Second-best, and Third-best of Hops, each 200 lb. Weight, of the Produce of 1744, in this Kingdom, produced at the House in Thomas-street, Ten Parcels; which examined by several Persons well skill'd, and in Hops. They unanimously adjudged the

as followeth; the first Premium, of 15 l. was adjudged to Mr. Samuel Ely, of Ros, in the County of Wick; who had this Year 53 Hundred Weight of Hops. The second Premium, of 10 l. was adjudged to Mr. Dawson, of Dawson's Court in the Queen's County. The third Premium, of 5 l. was adjudged to Mr. Bolton, of Brazile in the County of Dublin, who had but 1100 Weight this Year, and would have three Ton Weight, but for the Storms.

For the Premium of 20 l. for sowing the best Quantity of Land with Clover, Trefoil, Lucern, or Ryegrass, from September 1743 to 1744, were as follows. Mr. Laurence Misset of Kildare, in the County of Kildare, sowed within the Time, 70 Acres and four Perches, Plantation with 600 Weight of Clover Seed, 500 Weight of Trefoil, and two half Barrels of St. Foin, all which are in good Condition. Colonel Loftus, of Loftus-Hall, in the County of Wexford, sowed within the said time, 80 Acres, three and 19 Perches, with Clover, Trefoil, and Ryegrass, which are now in a flourishing Condition; and the Premium of 20 l. was adjudged to Colonel Loftus, who, upon hearing that the Premium was given in his favour, was so good and generous, as to desire, that the Society would be pleased to give the said 20 l. and apply it in such manner as might be proper, for the Encouragement of Husbandry and other Arts; which Favour they have accepted, and take this Opportunity of returning their thanks for this Act of Confidence in them, and Beneficence to others: Which Thanks are justly due to One, who, by his own Example, and by raising the same Spirit in his Neighbours, has so much promoted the

interests of his Country. The second Premium of 8 l. and 4 l. for the best and Second-best Pieces of Broad Cloth, made in the County of Wick, (not being Scarlet or Black, (for which last Premiums were twice given the last Summer) was adjudged to Mr. Bolton, of Brazile, in the County of Dublin, who had this Year 13 Pieces of Broad Cloth, and Seven fine Drabs, all made of Spanish Wool; and several of the most eminent

Clothiers in Dublin, then present, being desired to pitch upon those Cloths they judged best, they unanimously adjudged the first Premium to a fine Blue Cloth, made by Mr. Samuel Ruffel, living on the Comb; and the second Premium to a Medley of Mr. Joshua Calbeck's, in Crooked-staff, Clothier.—The Cloths produced gave great Satisfaction to all present; who declared, they never saw such a Parcel of fine Cloths, of our own Manufacture, so well wrought, finished, and of such good Colours; which shews our great Improvement in that Branch of Manufacture.

TURINUS and BERLIN-S; or, the two MONARCHS.

CONscious what He to Subjects owes,
See fam'd TURINUS flights Repose:
Bids each great Spirit lift his Shield,
And take, gainst Tyranny, the Field.
EPAMINONDAS like, behold
Him fond of Glory, spurning Gold:
In Science skill'd; by Wisdom taught;
Form'd, from her Rules, his every Thought.
To Treaties just; sagacious, brave;
Profuse of Life, his Realms to save.
From Rank to Rank, O! see Him fly;
Resolv'd to vanquish, or to die!
Whilst his red Thunders, swift, are hurl'd
At Foe, who would enslave the World.

The Medal turn: Berlin—us view.
Bidding, to Truth's pure Light, adieu.
Tutor'd by Machiavel, he Scorns
Each Virtue that a Prince adorns.
Oppression is his darling Theme;
Honour he terms an idle Dream;
Calls Murthers, Glory; Rapine, Fame;
And wades, thro' Blood, to spread his Name.
Fir'd, by French Politicks, he draws
His Sword, and like a Madman awes.
A QUIXOT, now, runs high and low;
And at each Windmill deals a Blow.
Yet stop, rash YOUTH; prevent thy Doom:
A Windmill, else, may be thy Tomb.
Your judgment, here, ye BRITONS show;
And give, what to each King, ye owe.
Let One, in Marble imag'd, shine;
And Honours claim: All but Divine:
Whilst t'other's Form, to Clay consign'd,
Is bootied at by all Mankind.

ANGLUS.

Within an Establishment, which has been long in Force in the Royal Navy, a Schoolmaster is allowed to each of his Majesty's Ships of the Third, Fourth, and Fifth Rate, with the Allowance of Midshipman's Pay, and Twenty Pounds a Year besides for his Encouragement; but an Opinion having prevailed of late Years, that since the Erection of a Royal Academy at Portsmouth, for Educating and Training up Gentlemen's Sons for his Majesty's Sea Service, the Establishment of Schoolmasters has been abolished; which Opinion being hurtful to his Majesty's Service, by preventing Persons from applying to be employed in that Capacity, and thereby depriving the Youth, who serve on Board his Majesty's Ships, of the necessary Assistance for perfecting themselves in the Art of Navigation: The Lords Commissioners of the Admiralty think proper to order this publick Notice to be given, that the Establishment of Schoolmasters on Board the Ships of the Royal Navy is still in Force; and that if Persons properly qualified, by having passed an Examination at Trinity House, will apply to this Office, they shall meet with all due Encouragement, and be warranted as Schoolmasters, on board such of his Majesty's Ships as may be in want of them.
